(54) PORTABLE COMPUTER

(57)Abstract:

PURPOSE: To provide a portable computer easily used for presentation or the like by individually managing operation information and the other information and selectively displaying the other information to a client or the like.

CONSTITUTION: Two liquid crystal display devices 11a and 11b are incorporated, and information are displayed on liquid crystal display devices 11a and 11b based on individual VRAMs (video RAM) 22a and 22b, and VRAMs 22a and 22b are selected at the time of write of picture data. Liquid crystal display devices 11a and 11b are

connected to VRAMs 22a and 22b through interfaces 21a and 21b, and interfaces 21a and 21b and VRAMs 22a and 22b are connected to a CPU 23. Interfaces 21a and 21b display the picture data written in VRAMs 22a and 22b on liquid crystal display devices 11a and 11b. Thus, information required for

operators and information required for clients or the like are separated from each other, and this portable computer is easily used for presentation of the like.
